	Learning Activities include: increased clinical experience in association with advanced students and residents, more complex simulated or real patient problems in small groups, resource encounters and experiences in alternative health care systems.	-----Doctoring Streamer-----																																																			
	Doctoring Streamer continues throughout the year (PAC, Continuity Clinic, Peer and Self Assessment)	Holidays/Breaks																																																			
Doctoring in Y2 reiterates and builds on Y1 knowledge and skills (with switch in focus to abnormal history and physical findings), Geriatrics and Genetics																																																					
1) Basic science and clinical co-chairs for the vertical segments																																																					
2) Each streamer topic is represented on the Y2CC by an individual to ensure integration into the vertical segments																																																					
3) Doctoring and other clinical experiences may be partially delinked from the progression of the segments																																																					
4) Horizontal streamer topics will be integrated into the segments and include: a) Evidence-based medicine, epidemiology, preventive medicine, and public and population health; b) Genetics; c) Neoplasia; d) Infection (Microbiology, Immunology, Pharmacology)																																																					
MPEE=Mentored Professional Enrichment Experience
